

“The Mold Proof training was some of the most informative, professional and exciting training that I’ve ever been a part of. We are proud to be a new Mold Proof distributor and have already identified Mold Proof installation opportunities.”

*Chad Luke
Vice President of Sales
Dri-Tech Waterproofing, Inc.*

Become a Mold Proof Distributor

Don't wait a moment longer to join our Mold Proof Distributor team. Add Mold Proof to your existing business or become a small business owner.

Become a Mold Proof Distributor today. Homeowners all around the country need your help to reduce liability and maintain property values. Builders need your help in decreasing their liability, creating new profit centers and differentiating themselves from competition. Territories around the United States are still available for new distributor-installers.

For more information about how to become a Mold Proof distributor, [contact us](#).

“In test marketing our existing structure protocol with a Mold Proof Distributor in Alabama, we have found a way to capture immediate business for those Distributors with existing client bases. In this case, our distributor was able to capture over \$56,000 of Existing Structure Mold Proofing within the first week of implementation. To say the least, this could have a major impact on all of those choosing to implement the Existing Protocol into their current Mold Proof business.”

RPS Executive Management Team

Mold Proof™

Why should you join our team?

Mold Proof practically sells itself because it meets the needs that the general market is demanding, according to 2003 CertainTeed market research. And Mold Proof referrals will grow significantly as a variety of contractors in your area become aware of the Mold Proof service.

As a Mold Proof distributor, you will enjoy a variety of additional benefits. You'll profit from:

Who are our Distributor/Installers?

Mold Proof Distributor /Installers typically come from service company/contractor backgrounds such as:

- Indoor Air Quality Professionals
- Mold, Asbestos, Fire & Water Remediation/Restoration
- Pest Control/Termite
- HVAC, Plumbing & Electrical
- Painters & Waterproofers
- Janitorial & Facility Service Companies
- General Contractors, Remodelers & Renovators

Who is a Mold Proof customer?

Mold Proof's proprietary training protocols allow our Distributor/Installers to service tens of millions of new and existing structures throughout North America which include:

NEW CONSTRUCTION

- Builders & General Contractors
- Engineers
- Architects

EXISTING CONSTRUCTION

- Residential Properties
- Commercial Properties
- Industries Facilities

The most outstanding Green Technology

All of Mold Proof's preparation and protection products are "Green Performance Chemistries" developed with Microbloc. The market is demanding green and we can deliver!

No competition

Each distributor has a uniquely defined territory, so Mold Proof distributors do not compete with one another. Instead, distributors work together to share marketing and installation tips.

Quick installation

Since Mold Proof is a sprayable product, it installs in less than one day. It is a quick and easy process for you and your customers. Plus, you do not have the cost and time of ripping out walls.

Turnkey equipment and on-site training

Risk Prevention Systems provides Mold Proof distributors a turnkey package that includes:

- Exclusive Distributor Contracted Territory
- Initial product inventory
